The long-awaited first iPhone game from Cartoon Network's [adult swim] has finally made it on to the iTunes AppStore for the iPhone and iPod Touch running the 2.0 firmware. As with all things [adult swim], this game mixes the comedy world, the gross and bloody world and the imagination world all at your fingertips.

From the AppStore description:

"Amateur Surgeon from [adult swim] puts all of your wildest surgery fantasies in the palm of your unwashed, unqualified hand. Use precision instruments such as a pizza cutter, salad tongs, stapler, and a car battery to hack your way through thirty different procedures and be the surgeon that your parents always knew you would never become."

Also, please take note of the warning that is posted with the game. I personally think this makes it a more enticing download, but perhaps that's just my sick and twisted personality.

Rated 17+ for the following:

- Frequent/Intense Mature/Suggestive Themes
- Infrequent/Mild Horror/Fear Themes
- Frequent/Intense Profanity or Crude Humor
- Frequent/Intense Cartoon or Fantasy Violence
- Infrequent/Mild Sexual Content or Nudity
- Infrequent/Mild Realistic Violence
- Infrequent/Mild Alcohol, Tobacco, or Drug Use or References

At this time, Amateur Surgeon is only available to the United States market, but expect a wide release in the next few days.
