Trailer of Paramount's iPhone game Shooter

Author: BillyC | Filed under: [Shooter](#), [iPhone](#), [iPod](#) | Date: Feb 14, 2009

Paramount's iPhone and iPod Touch games have been very successful so far, so they decided to develop another game based on their movie Shooter. [SHOOTER! The Official Movie Game](#) is a sniper-like game with tilt controls and touch screen controls. Paramount is releasing Shooter for iPhone and iPod Touch next week in the App Store.

*Over 30 High Stakes Sniping Levels: Earn medals and rewards through the successful completion of dangerous assignments while progressing through training sessions and multiple missions that feature challenging bosses.

*First Person Sniper Perspective - Use the accelerometer to zero in on your targets with your binoculars and scope. Distance and wind must also be factored into your shot.
