F1 fans, get ready to put the pedal (or eerrrm... finger) down and race with the BMW Sauber F1 team... on your iPhone! Artificial Life together with the BMW AG are teaming up to produce a BMW Sauber F1 Team racing game for the iPhone and iPod Touch. Can't wait to get my hands on this one once it is released (I'm a bit of an F1 junkie).

The new title will be the second from the partnership of the two companies, the first being 'BMW Z4 - An Expression of Joy'.

Look for the new title to feature the BMW Sauber F1.09 race car in detailed hi-res 3D graphics. Join the team (including Heidfeld and Kubica) and race on a variety of circuits modeled after famous tracks featured in the F1 series. Stay tuned for more on this one!
